At Haydon Wick Primary School, we show the value of understanding by:

- Thinking about others,
- Caring about how people feel,
- Understanding when people are sad or need support.

What does the value of understanding mean to us?

Charlie Y5, "If people are different, we should understand why they are different and treat them just the same.

Lillie Y6, "Understanding is when you understand someone's problem."

Layla Y6, "Understanding is where you understand an important task."

How do you show the value of understanding at home?
