The Legal Framework

The statutory requirement that schools should encourage pupils' Spiritual, Moral, Social and Cultural Development (SMSC development) was first introduced in the 1988 Education Reform Act.

The Act states that the curriculum for a maintained school must be a balanced and broadly based curriculum which:-

Promotes the spiritual, moral, social and cultural development of pupils at the school and of society; and

Prepares pupils for the opportunities, responsibilities and experiences of adult life.

The Revised National Curriculum stressed the importance of ensuring SMSC development is explored through other curriculum subjects.

Aims

At Haydon Wick Primary School, the children and their learning are at the very heart of every decision made. We aim to develop learners who are passionate, take ownership of their learning and are proud of their achievements. The ethos of our school is such that all people who come into our school, whether staff, pupil, parent or visitor, are valued as individuals in their own right. They should set, and be entitled to expect from others, good standards of behaviour, marked by respect and responsibility.

The school will help the students to develop an inner discipline and will encourage pupils to make up their own minds and be ready to accept responsibility for what they do. They will grow through making choices and holding to the choices that they have made. They will want to be honest with themselves and with others.

Equal Opportunities

At Haydon Wick School we provide an equal opportunity for learning about all areas of the curriculum. Every child, regardless of gender, culture, religion, race or social factors, is to take an active role in SMSC. Everyone is encouraged to actively participate, to have opinions, feelings and problems listened to and responded to in a classroom that is conducive to a feeling and atmosphere of equality and the importance of everyone.
